But, of course, the cost will be accurately estimated when the plans are adonted His words mean that citizens must not weigh a mere consideration of dollars and cents against the bulk of human lives and the health of their children; that the actual value of proper sanitation is not computable in money. It might be well, however, for citizens to take some accounting of the cost of their possible negligence in this regard, as estimated in the health of the community and its retarding effect on the Increase 392 development of the city.

Imme diately there was a storm of hisses and shouts of "shame." "There is death in store for more of you if this rebellion keeps on" continued Dowie Again the people sprang from their chairs shouting and gesticulating until their tumult became so general that Dowle was obliged to bring the meeting to a close

TAXATION

IS SUBJECT OF ADDRESS BY W. A. ROBINSON.

Will Speak Tuesday Night At Kentucky Theater Under Auspices of Commercial Club.

Paducah owes much to her public pirited organizations, the clubs that have brought to the city the best of music and educational talent, and to the Commercial club, which is ever promoting whatever is for the advancement of the community along all lines. The latest effort of the Commercial club is the arrangement for a lecture tomorrow night by Wilwill address the citizens on "Taxation." The Kentucky theater has been secured for the occasion and it is expected that a large representation of the farmers of the county, as well as city people will attend.

Sanitation Hints.

Good sanitation for 1906 should be your motto.

Clean your premises, keep them clean and sprinkle with lime.

Screen your doors and windows and keep out the housefly, the most dangerous of pests. It carries disease and infection.

The most effective money spent in advertising Paducah will be that spent in cleaning and draining it. Every citizen can help to do this, in their own way.

No mosquitoes, no malaria. A clean city no danger of yellow fever and typhoid. A Central Park for a good morning breath.

It should be in the city; not in the country. The country boys have nothing but parks. The park is not for those who go out on street cars and in carriages so much as for those who cannot ride and it should be near the congested district. That is the city. It should be where the poor who never see the country can rest. It should be where the little children during the sickly months of the summer can roll on the grass. You cannot blame him for not heeding a voice that never is raised. If municipal affairs go wrong, we should not sit back and criticize but take ahand and right them.
